WHY IS SUMMER LEARNING IMPORTANT?

- Numerous studies have shown that reading over the summer prevents summer reading loss or “summer slide.”
- Summer reading loss is cumulative. Children don’t “catch up” in fall because the other children are moving ahead with their skills. By the end of 6th grade children who lose reading skills over the summer are 2 years behind their classmates.
- Reading 4 or 5 books over the summer can have a significant impact for middle school readers.
